

AWRA OPSSHUB · STORES, WAREHOUSE AND OPERATIONS

Inventory Module Brochure

Live stock across warehouses, branches and the field.

Know what you hold, where it is, and how it got there

AWRA Inventory keeps one item master for every warehouse, branch and shelf, and records every movement — receipts, issues, transfers, adjustments and counts — with who did it and why. The stock figure on screen is the sum of those movements, so it can always be explained.

What is included

FEATURE	FREE	BASIC	PRO	PREMIUM	ENTERPRISE
Item catalog — SKUs, variants & rich profiles	✓	✓	✓	✓	✓
Item categories & custom fields	✓	✓	✓	✓	✓
Barcode & QR generation + scan-to-find	✓	✓	✓	✓	✓
Multi-warehouse, branches & bin/shelf locations	✓	✓	✓	✓	✓
Stock check-in / check-out (reasons + inventory accounts)	✓	✓	✓	✓	✓
Inter-warehouse stock transfers	✓	✓	✓	✓	✓
Stock counts & cycle counting	✓	✓	✓	✓	✓
Low-stock & reorder-point alerts	✓	✓	✓	✓	✓

✓ included · Partial: limited or configurable · View: read-only · — not on this plan. The Free plan is a 30-day trial with every module switched on.

Where it earns its keep

Counts that do not overwrite the books

A stock count raises its variances as adjustments for review, rather than silently replacing the figure, so a shortfall is investigated before it is written off.

Batch, expiry and quality holds

Track lots and expiry dates on medicines, food and other perishables, and hold suspect stock out of circulation until it is cleared.

Receiving with no signal

The Android app keeps receiving, issuing, transferring and counting offline, then syncs and validates on the server when the connection returns.

Scan instead of type

Generate barcodes and QR labels, scan to find an item, and pair a phone as a scanner for the web app.

Reorder before you run out

Reorder points are recalculated nightly from usage, with safety stock you set, and low-stock alerts reach the people who buy.

One location, one warehouse

A shelf belongs to exactly one warehouse, so stock lands in the warehouse you chose — a shelf from another branch cannot carry it there.

Next step

Request a written quotation for management approval at awraops.com/request-a-quote, book a walkthrough at awraops.com/request-demo, or start a 30-day trial with every module switched on at awraops.com.
